

WINDOW REGULATOR MOUNTING INSTRUCTIONS

FORD CROWN VICTORIA, MERCURY GRAND MARQUIS AND LINCOLN TOWN CAR

1. If you purchased a Regulator only, attach motor to regulator. If you purchased a Motor and Regulator skip to step 2.
2. Mount motor and regulator to door. Tighten screws for motor mounting leave remaining nuts and screws loose.
3. Align window to regulator and attach with screw and nuts, or rivets. Tighten window screws.
4. Connect power to the motor and operate the window to the full position.
5. Tighten 2 nuts on upper regulator mounting.
6. Tighten 2 screws or install rivets on lower regulator mounting.
