- 4" steel tray with magnetic base
- Magnet is rubber coated to protect vehicle surfaces

ACI®, established over 40 years ago, is a pioneer in the development of automotive windshield Washer Pumps and Window Lift products for the automotive aftermarket. During this time, ACI® has established itself as the industry leader in providing the most complete product offering combined with the "best in class" quality available in the market today.

Located in Lewisville, Texas, ACI® manufactures washer pumps in our US facility for distribution to both domestic and international markets. The strategic decision to supply "exact fit" products combined with an intensive product validation process has allowed ACI® to maintain its position as the industry leader in this category.

Count on ACI® for "QUALITY PRODUCTS - O.E. PERFORMANCE"

The Window Handle Removal Tool easily removes automotive window crank handles.

Front View

Rear View

To remove window crank handle:

1. Place tool under handle as shown, push in direction of arrows.
2. Pull off tool and window crank handle.

To reinstall window crank handle:

1. Push clip on to window crank handle.
2. Push window crank handle on to post until it snaps into place.

P/N 387903 - Window Holding Tool

See instruction sheet for proper use. Never use as a permanent solution or while vehicle is in motion.

The Window Holding Tool holds automotive windows in place during door system installation and repair.

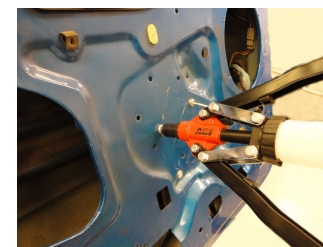

Includes two of the most popular sockets used for installation and removal of door system components. The 10mm and 8mm sockets are hardened, high quality, chrome plated steel.

P/N 87900 - Heavy Duty Hand Riveter Kit

The Heavy Duty Hand Riveter is used to easily rivet window regulators and window lift motors to the door. Kit also includes a 4" extension for hard to reach places.

Rivet sizes included are:

- 3/32" (2.4mm) diameter
- 1/8" (3.2mm) diameter
- 5/32" (4mm) diameter
- 3/16" (4.8mm) diameter
- 1/4" (6.4mm) diameter

P/N 387906 - Replacement Rivet Kit

The Replacement Rivet Kit is used to easily install window regulators and window lift motors. One Replacement Rivet Kit can be used to install one regulator or motor on most vehicle applications.

Rivet sizes included are:

- 10 pieces, varying length 1/4" (6.4mm) diameter
- 10 pieces, varying length 3/16" (4.8mm) diameter
- 4 pieces, 5/32" (4mm) diameter
